MOTOMAN INTRODUCES EC1700 "EXPERT CUTTING" ROBOT: IDEAL FOR PRECISION WATERJET AND DISPENSING

Dayton, Ohio — Motoman's new EC1700 robot is specifically designed for waterjet and dispensing applications that require a high degree of accuracy and precision, coupled with robust performance and reliable operation. The six-axis EC1700 has a 20 kg (44.1 lb) payload and features a 1,717 mm (67.6") reach with a 0.08 mm (0.003") repeatability. The EC1700 features high-performance gear reduction and improved absolute path accuracy (straight line and cornering capability).

The EC1700 robot uses the advanced NX100 controller that features a robust PC architecture, Windows® CE programming pendant, and easy-to-use INFORM III programming language.

Motoman provides robots and complete robotic automation for virtually every application and industry. Founded in 1989, Motoman has continually gained market share and is now one of the largest robotic solution providers in North and South America with more than 28,000 robotic installations. Motoman's parent, Yaskawa Electric Corporation, is the world's leading robot manufacturer with an installed base of nearly 200,000 robots.

For more information on the EC1700 robot, NX100 controller or other Motoman products and services, visit the corporate web site at www.motoman.com, call 937.847.6200 or write to Motoman Inc., 805 Liberty Lane, West Carrollton, Ohio, USA 45449.
