MOTOMAN INC. MOVES DETROIT REGIONAL CENTER TO ROCHESTER HILLS

Dayton, Ohio — Motoman Inc., a world-leading provider of robots and complete robotic solutions, is relocating their Detroit Regional Center from Wixom to Rochester Hills, Michigan, effective July 1.

The nearly 15,000 sq. ft. Rochester Hills facility includes offices, sales and service support, training, a larger demonstration lab, a manufacturing area for small robot systems, and spare parts storage for local customers. Motoman's Detroit Regional Center will continue to operate under the direction of Glenn A. Jackson, VP Automotive OEM and Great Lakes Region.

“The move makes access more convenient for the majority of our automotive customers, as well as many of our targeted customers and integrators,” Jackson said. “The City of Rochester Hills is actively growing its base of high technology businesses as part of a continuing economic development plan that makes the new location for Motoman's Detroit Center even more attractive,” he continued.

The new facility is in an office park near Crooks Road and State Route 59 (Hall Road), a location selected for its proximity and easy access to both the Detroit Metro area and the I-75 corridor.

For more information on Motoman products and services, visit our corporate web site at www.motoman.com, call 937.847.6200 or write to Motoman Inc., 805 Liberty Lane, West Carrollton, Ohio, USA 45449.
