WARNING
- Make sure all safe guards are in place and follow ANSI RIA 15.06-2012 standards and all applicable local and national codes.
  - The means and degree of safeguarding, including any redundancies, shall correspond directly to the type and level of hazards presented by the robot system and robot application. Safeguarding may include but not limited to safeguarding devices, barriers, interlock barriers, perimeter guarding, awareness barriers, and awareness signals.

Failure to observe this WARNING may result in a potentially hazardous situation that may result in death or serious injury to personnel.
